## Women's Services National Survey

### Basic Crosstab

Performed by Spry Strategies

The Women's Services National Survey was conducted by IVR and Online Mobile Interviews from June 3- June 8 among a random sample of 3000 likely and newly registered voters. The survey has a margin of error of +/- 1.8 percentage points. Results are weighted. Some percentages in crosstab reports for this poll may not add to 100% due to rounding. Interviews were geographically dispersed across the county to reflect the nation's electorate.
